JOE FERNETTE

Web Developer

Fernettejs@gmail.com   Portfolio: Fernettejs.github.io   Github.com/Fernettejs

Efficiency-driven, outcome-oriented web developer focused on creating high-impact, user-centric websites. A creative, self-starter and quick learner with excellent communication, organizational and analytical skills with leadership and problem-solving experience under a vast array of high-pressure environments.

EXPERIENCE

2018 – CURRENT

PUBLIC SAFETY OFFICER • BAY CITY DEPARTMENT OF PUBLIC SAFETY

ABOUT: Department of Public Safety providing 24-hour law enforcement, fire and emergency medical service.

- Problem solving that required creative thinking in order to solve people's unique issues.
- Attention to detail when writing over 700 reports that have been viewed by supervisors and prosecuting attorneys.
- Collaborated with partners and other agencies daily to resolve problems.

2016-2018

BUSINESS OWNER • OPERATION OUTLAST LLC

ABOUT: A company with the goal of spreading information and awareness while still being entertaining.

- Personal business built from scratch where I used WordPress to create a website to share information and entertain.
- Used HTML, CSS, and JavaScript to make changes to the WordPress theme and have a responsive design in order to be viable on multiple platforms.
- Included blog posts, imbedded videos, products, and outside commenting that consumers viewed.
- Tested and debugged website while adding plugins for easier use.

2010-2014

COMBAT ENGINEER • UNITED STATES MARINE CORPS

ABOUT: The maritime land force service branch of the United States Armed Forces.

- Data collection and analysis with risk assessment covering multiple aspects of the job.
- Critical thinking and decision making in order to approach problems from varying angles.
- Completed Intermediate Leadership and Management Development.
- Supervised, trained and evaluated 25 personnel in rapidly changing environments.
